Looking Over Events

Amazing Subversive List—In the hunt for subversives the super-patriots appear to be carrying on amazingly. That is evident from a list mailed to Washington officials from Los Angeles unofficial investigators. These well known folks are named as following the Communist list:

Chief Justice Earl Warren, Nelson Rockefeller, Winthrop Aldrich (former head of the Chase National Bank and ambassador to Britain), Secretary of State Dulles, Allen Dulles (head of the Central Intelligence agency), Roy Howard and Gardner Cowles (owners of leading newspaper strings), the Christian Science Monitor, and Time and Life magazines.

Something to laugh at, maybe. But it wouldn't be at all funny if those named and more than 100 others similarly denounced in the same circular happened to be poor job holders.
